

NORD UNIVERSITY BUSINESS SCHOOL

Contemporary Streams of Institutional Theory in Management and Accounting

24–28 August 2026 • Bodø, Norway • Taught in English

5 INTENSIVE DAYS • INTERNATIONAL NORDIC FACULTY
NORWEGIAN DOCTORAL ACADEMY IN BUSINESS

Institutional theory explains how organizations and people actually behave, and why they so often act against their own logic. This five-day PhD course builds a deeper command of its contemporary streams and connects them directly to **your own research project**. You work with the analytical tools through lectures, group sessions, and discussion of your own papers.

“A course that should be mandatory.”

Luiz Andrade • PhD researcher, Tampere University • 2024 participant

WHAT YOU WILL WORK WITH

- | | |
|---|---|
| 01 Classical streams and Scandinavian institutionalism | 02 Institutional logics and their analytical tools |
| 03 Institutional entrepreneurship in management | 04 Institutional work in research design |
| 05 Theoretical pluralism and combining theories | 06 Peer review of your own paper in class |

Format. Lectures, individual presentations, and research dialogue in class. You submit a short reflection paper before the gathering and a final paper afterwards. Grading is pass / fail.
